PROCESS ASSESSMENT

# Lab Skills

Evaluate someone else’s work, or your own, by circling the appropriate number for each criterion. Then add up the circled numbers in each column and record the sum in the subtotals row at the bottom. Add up these subtotals to get the total score.

Graded by \_\_\_\_\_ Total \_\_\_\_\_ /100

Behavior	Completely	Mostly	Partially	Poorly
Follows lab procedures carefully and fully	10-9	8-7-6	5-4-3	2-1-0
Wears the required safety equipment and displays knowledge of safety procedures and hazards	10-9	8-7-6	5-4-3	2-1-0
Uses laboratory time productively and stays on task	10-9	8-7-6	5-4-3	2-1-0
Making and Recording Observations	Completely	Mostly	Partially	Poorly
Uses tools, equipment, and materials properly	10-9	8-7-6	5-4-3	2-1-0
Makes quantitative observations carefully, with precision and accuracy	10-9	8-7-6	5-4-3	2-1-0
Uses the appropriate SI units to collect quantitative data	10-9	8-7-6	5-4-3	2-1-0
Records accurate qualitative data during the investigation	10-9	8-7-6	5-4-3	2-1-0
Records measurements and observations in clearly organized tables that have appropriate headings and units	10-9	8-7-6	5-4-3	2-1-0
Works well with partners	10-9	8-7-6	5-4-3	2-1-0
Efficiently and properly solves any minor problems that might occur with materials or procedures	10-9	8-7-6	5-4-3	2-1-0
